Jared & Anna Odle

***Is this not the kind of fasting I have chosen: to loose the
chains of injustice and untie the cords of the yoke, to set
the oppressed free and break every yoke?***

***Is it not to share your food with the hungry and to
provide the poor wanderer with shelter—when you see
the naked, to clothe him, and not to turn away from
your own flesh and blood?***

Isaiah 58:6 – 7

Kingdom Community Builders

A Discipleship & Development Ministry

Issues and Challenges

Whole Ministry of the Gospel

- Our passion is to demonstrate God's provision for every person's complete well being through discipleship (spiritual life) and development (physical life).
- Interdependent relationships, measured in strengths, between the church in Africa and the West.

Poverty & The Poor

- Poverty is a state of broken relationships, beginning with God.
- The Poor and Non-poor have marred identities and vocations.
- Our team will build on the church's legacy of addressing crisis situations and join the African Church's long term transformation.

Ghana, Missions & Africa

- Africa has more Christians than any other continent, but represents only 6% of the missionary force.
- Systemic poverty still exists in communities where the Church has been present for many years.
- Ghana is a developing country and with an increasing influence.

From Aid to Transformation

Each community writes its story and we enter for a portion of time to point out God's present spiritual and physical resources for healthy living and permanent change.

Our Mission

The MRI Ghana Team's purpose is to partner with Ghanaians to create Kingdom Communities through discipleship and development.

Ministry Strategy

Ministry Distinctives

Transformation

Our team will seek community and worldview transformation through business and community development.

Reconciliation

We follow Paul in the ministry of reconciliation (2 Cor. 5:11ff) intentionally working with all socio-economic and cultural statuses.

Sustainability & Replication

All existing communities, including undeveloped communities are sustainable by virtue of their existence. MRI Ghana works with rural and urban communities providing different tools to increase community health and vitality for reproduction and growth.
